HYDRAULIC CLAMSHELL GRAB

24 x 7 x 365
spares & service availability

High Quality
Components

Robust design

Low self weight

Highest closing force
and penetration

Extreme wear
resistant buckets

Description:

Electro-Hydraulically operated grab, used for handling a wide range of loose materials like coal, rock, iron ores, gypsum, fly ash, logs, mill scale etc. It is the best and most cost effective way to handle loose materials in yards and has a lot of benefits over mechanical grabs

Application:

Widely used in steel plants, sponge iron plants, thermal power plants, cement plants.

Technical Specification:

Capacity ranging from 1 Cu meter to 8 Cu meters with options to mount on EOT cranes, Gantry cranes, mobile cranes and stationary base mounted cranes.

HYDRAULIC CLAMSHELL GRAB
